

# The Health App Challenge

## *Patient-led app review and app development*

Have a great idea for an app or website to help with diabetes or weight loss surgery management? Let us help you to make it a reality and get paid up to £600. With support from intellectual property specialists, health professionals, medical charities and developers we can support your app design and development.

### Design an app

Design your storyboard/mock-up of an app and have it reviewed on our website to win £100 plus chance to win additional £200 for best reviewed. If you are a person with diabetes or pre/post weight loss surgery living in the UK, register now.

### Develop an app

Develop your app and have it reviewed on our website to win £300 plus chance to win additional £200 for best reviewed. If you are a patient or someone who can help a patient develop an app living in the UK, register now.

### Review an app

Our review page is a great opportunity to share and see what apps other people are using for diabetes and weight loss surgery management.

Coming soon - Tell us what you think about these apps and app designs on our review website and we'll enter you into the prize draw to win £200.
